(ASSOCIATED PRESS TELEGRAM)
Rome, Oct. 27.—The Italian
army has been taken prisoner by the Austro-Ger-
man forces in their offensive on the
Isonzo front, army headquarters an-
nounced today. Guns to the number
of 450 have been captured.

The mountain ridge of Stol, has
been captured from the Italians as
has also the summit of Mount Mata-
jur, says the official announcement.

Statement claims the defeat of the
second Italian army and that the
Isonzo front of the Italians is im-
portant as far as Wipach.

On the Carso front the Italians are
maintaining their positions.

Emperor Charles of Austria-Hun-
gary is commanding the attacking
Austro-German army which, the
statement says, is pressing toward
the Italian plain through the spurs
of the Julian Alps.

ROME ADMITS REVERSES.
Rome, Oct. 27.—Having crossed
the Italian boundary line between
Monte Cania and the head of Judrio
valley, the enemy is attempting to
reach an opening on the plans, says
today's official communication.

The Austro-German forces are
making strong attacks on the Carso
front. They were repulsed by the
Italians.

The statement follows:
"After having crossed our bound-
ary line between Monte Cania and
the head of the Judrio valley, the
enemy is attempting to reach an
opening on the plans. On the Carso
the hostile effort is increasing.
Strong offensive thrusts by the enemy
were repulsed by our troops."

A semi-official statement issued
yesterday says the struggle on the
Isonzo front is more than bitter and
that the alternatives are undecided.
The situation created by the power
of the enemy, says the announcement
is "certainly grave."

The statement says headquarters
has taken necessary measures and
that if the troops remember that on
ten different occasions they defeated
the enemy on his formidable Carso
positions he is unlikely to trend the
national soil long. The thanks of
the country are due to the Fifth
Bersaglieri brigade which in the last
few days has held the Globocak pos-
ition, the Austro-German and is de-
fending it by indefatigable and mag-
nificent counter-attacks during which
prisoners have been taken.

MUD HELD UP ADVANCE.
British Front in Belgium, Oct. 27.
(By The Associated Press).—Foot-
lock chateau, on the Ypres front,
which the British entered yesterday
was in the hands of the Germans to-
day. Hard fighting is continuing.

The terrible condition of the
ground prevented as much of an ad-
vance yesterday as was desired.
Nevertheless the main purpose of the
attack—occupation of the Bellevue
spur—was achieved.

The Canadians today are digging
in across the neck of the Bellevue
spur west of Passchendaele, the dom-
inating vital position. Yesterday the
Canadians were compelled by a counter
attack to relinquish some raised
ground on the west of the
spur but they fought their way back
reclaiming another counter attack last
night.

BEAT BEST GERMAN TROOPS.
(ASSOCIATED PRESS TELEGRAM)
With the French Armies in France
Oct. 26.—However great may be the
praise bestowed on the French troops
for the brilliance of their victory over
the Germans north of the Aisne, this
week, it is for small an appreciation
of their herculean efforts in the face
of one of the most difficult tasks of
the war. This is the opinion not only
of their immediate chiefs, but of all
who have seen them at work. Fronting
them were the finest divisions of the
German crown prince's army occupy-
ing positions that were strongly
fortified and having the keenest ap-
preciation of their value.

Notwithstanding this, the French
not only succeeded in attaining every
objective set them, but exceeded the
hope of the most sanguine and ad-
vanced beyond the appointed mark.
More than 11,000 prisoners already
have been counted and sent to the
rear. Others are coming in and
large groups still are hiding in sub-
terranean shelters and their fate can
only be capture.

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 27.—The Lib-
erty Loan campaign went into its final
hours today with every energy of
two million field workers straining
to carry it past the five billion dol-
lar mark.

"Revised official and unofficial
reports today strongly indicate," the
treasury department announced,
"that approximately \$4,000,000,
000 in bonds have been sold."

"Additional sales of \$1,000,000,
000 today bringing the total to the
highest mark hoped for, seemed not
impossible, but entirely probable."

"Official returns show that the
twelve federal reserve banks had re-
turns of \$2,750,105,000, represent-
ing subscriptions officially reported
to them when they opened their
books today. Inasmuch as this to-
day indicates only sales upon which
two per cent deposits have been
paid, the total is well under the
amount of actual sales. A margin
of at least \$1,000,000,000 should be
given unofficial sales over the offi-
cial total. The official totals fol-
low:

"Boston, \$330,100,000; New York,
\$1,175,000,000; Philadelphia, \$102,
226,000; Cleveland, \$226,000,000;
Richmond, \$114,400,000; Atlanta,
\$35,545,000; Chicago, \$271,250,
000; St. Louis, \$23,744,000; Min-
neapolis, \$100,250,000; Kansas City,
\$57,980,000; Dallas, \$37,150,000;
San Francisco, \$108,535,000. Total,
\$2,750,105,000."

"Returns from the Cleveland dis-
trict show a remarkable advance,
going from \$234,770,000 to \$226,
000,000 overnight. Little doubt re-
mains at the district will reach its
maximum quota of \$500,000,000."

With the close of the Second Lib-
erty Loan campaign set for tonight,
two million workers in every sec-
tion concentrated on an intensive
effort today to swing the subscrip-
tion total over the five billion dollar
line.

Unofficial reports reaching the
treasury early today indicated that
the four billion dollar mark had
been reached, and that the final day's
subscriptions will exceed daily re-
ports established earlier in the drive.

Treasury officials hold out no
hope for even a close approximation
statement of the total subscription
before early next week. All dis-
tricts will work until midnight and
this means that the drive on the
Pacific coast will not end until 3
a. m. Sunday eastern time.

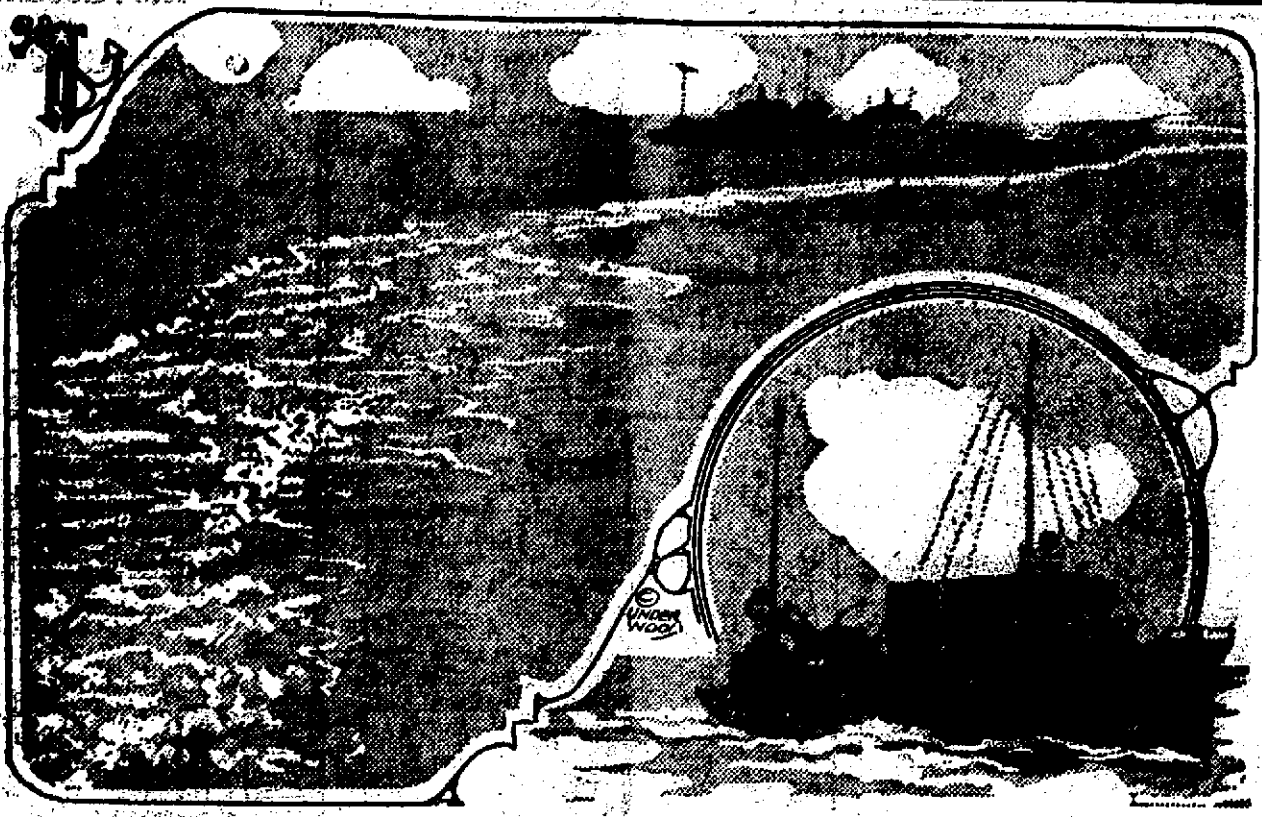

CLEVELAND AREA WINS.
(ASSOCIATED PRESS TELEGRAM)
Cleveland, Oct. 27.—Every county
in the Cleveland area in the Liberty
Loan campaign has either reached or
exceeded its quota, the aggregate
subscriptions not including Cuyahoga
county being approximately \$43,000,
000 against a quota of \$35,000,000.
It was announced by the campaign
committee today at noon. It is ex-
pected that these outside counties
will show a grand total close to \$50,
000,000.

Cleveland's subscriptions were es-
timated at noon to have reached
\$70,000,000 and the fourth federal
reserve district totalled \$450,000,
000 or \$50,000,000 over its quota.

NEW BONDS MONDAY.
(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 27.—Trading in
the new Liberty Bonds will begin on
the New York stock exchange next
Monday but transactions will be lim-
ited to actual cash dealings. The ex-
change, it is said, will not authorize
trading in contracts on a "when is-
sued" basis, until the Liberty loan
committee authorizes it to do so.

On the curb yesterday \$1,000 of
the new bonds were sold at par for
cash.

Y. M. C. A. WANTS FIVE MILLIONS FOR WORK AMONG SOLDIERS

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 27.—A campaign
to raise \$5,000,000 for Young Men's
Christian Association work among
soldiers on extended lines both at
home and abroad, among the troops
of Russia, France and Italy, will be
begun on an intensified nation wide
scope, it was announced here today
before the association's war work
council.

The \$5,000,000 raised last April,
it was shown, was proved inadequate
to meet conditions arising from the
fact that army mobilization has gone
forward more rapidly than antici-
pated even in Washington. It has been
decided that \$11,000,000 will be re-
quired for troops in this country un-
til next July and \$12,000,000 for
troops in action abroad, it being es-
timated that there will be 3,200,000
American fighting men to care for.

MICHAELIS AND KING OF BAVARIA STAND IN WAY OF PEACE

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, Oct. 27.—King Lud-
wig of Bavaria and Chancellor Mich-
aelis were denounced as the two
great obstacles to peace, by Deputy
Simon, a socialist in the Bavaria
diet Thursday. The king, he said,
had demanded that Germany control
the mouth of the Rhine, a question
which affects neutral territory. The
imperial chancellor, he charged, had
discredited the reichstag's peace resolu-
tion by his recent utterances.

Premier von Hertling, protested
against the statement that the king
of Bavaria wished to seize the pre-
sent mouth of the Rhine, which was
Dutch territory. The king instead
advocated an artificial outlet for
Rhine traffic by means of a canal
under German control.

AUSTRIAN SOCIALISTS DEMAND PEACE PLANS

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, Oct. 27.—Austrian
socialists at their convention in
Vienna demanded that the govern-
ment proclaim the principle of no
annexations and no indemnities,
both positively and negatively. They
also called on the government to dis-
avow any desire to maintain Poland
and Serbia in any kind of military
or economic dependence and to se-
cure Germany's adhesion to the same
program.

This is the first party in the cen-
tral empire to formally reject the
idea of forced annexation. Many
German socialists accept Dr. von
Bethmann-Hollweg's idea of an
autonomous Poland within the Teu-
tonic sphere of influence.

ZEPPELIN DROPS IN SEA OFF SOUTH FRENCH COAST

(ASSOCIATED PRESS TELEGRAM)
Toulon, Oct. 27.—In addition to
the four Zeppelins known to have
been lost by the Germans in French
territory last Saturday has now been
reported destroyed by falling into
the Mediterranean last Saturday
night. Two French naval aviators
made this report today. The Zepp-
lin sank forty miles south of the
Hyers islands.

DAILEY QUITS WHEN HIGHER UPS INTERFERE WITH I. W. W. SENTENCE

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Oct. 27.—Frank C.
Dailey, whose resignation as special
assistant to the United States attor-
ney general in election fraud and I.
W. W. prosecutions was announced
from Washington today, in a state-
ment issued last night, declared that
his connection with the government
was severed, due to developments in
the case of Samuel V. Perrott of In-
dianapolis, convicted on election
fraud charges.

"The usual effort to prevent Mr.
Perrott from serving his sentence
was well started before I learned of
it," the statement says. "In fact, the
60-day respite had been granted. I
had protested against the course of
action ever since. I wrote an assis-
tant attorney general saying, that if
Mr. Perrott's sentence was nullified,
my usefulness in government prosecu-
tions was at an end, and that I
would not proceed with any prosecu-
tions; and, further, that I would not
be a party to proceedings which sent
subordinates to prison and permitted
the principals to escape. The attor-
ney general in reply asked for my
resignation and same was for-
warded."

EAT LESS AND WASTE NOTHING IS NATION'S PLEA TO CITIZENS

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 27.—"The
government of the United States
is asking every citizen of the
country to eat less beef, pork,
pork products, wheat, butter
and sugar, and to waste no
foodstuffs, as an act of common
defense."

This is the explanation given
today by Herbert Hoover, food
administrator of the National Food
pledge which begins tomorrow and con-
tinues until Nov. 4. Half a mil-
lion canvassers are ready for
the campaign to induce at least
thirteen million of the country's
twenty million households to
sign the pledge to conserve food
during the war.

FINS FEAR HUN HORDES; EVACUATE HELSINGFORS

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Oct. 27.—Preparations
are being made in Helsingfors for
the evacuation of that city, accord-
ing to a telegram received here. A
report from Stockholm to the Novoe
Vremya says that in view of the
easy advance in Russian territory
the Germans are preparing for a
descent on Finland and, profiting
by their propaganda, expect to be
able with small forces to capture the
Russian troops without resistance
and to cut the railway at Tornaa,
severing communication between
Russia and Sweden.

NEW TAXES FOR GERMANS.
(ASSOCIATED PRESS TELEGRAM)
Copenhagen, Oct. 27.—The Ger-
man government is considering the
introduction of new taxation meas-
ures at the December session of the
reichstag. Additional revenue is
necessary to meet interest on the
seventh and preceding war loans,
part of which were paid from the
proceeds of the loan themselves.

EXPECT KING WILL ASK ORLANDO TO HEAD NEW CABINET

(ASSOCIATED PRESS TELEGRAM)
Rome, Oct. 27.—An interesting
feature of the defeat of the ministry
was the applause with which the
chamber received the speeches of
Premier Boselli, foreign minister
Sonnino and Minister of the Interior
Orlando in explaining the policy
of the cabinet. Its defeat in the vote
of confidence was a surprise and it be-
lieves the king without definite in-
dication as to the political tendency
of the chamber. It is taken as settled
that he will call on Minister Orlando
to form a new cabinet. The chamber
has shown itself particularly favor-
able toward the minister of the inter-
ior.

The general opinion is that only a
few members of the retiring cabinet
will be asked to join the new one.
The newspapers believe the war pol-
icy of the new ministry will be un-
changed.

WARNS STOCKYARDS AGAINST ENEMY PLOT TO CONSERVE FOOD

(ASSOCIATED PRESS TELEGRAM)
Seattle, Wash., Oct. 27.—In re-
sponse to a warning telegraphed by
Food Administrator Herbert C.
Hoover of a reported conspiracy
afoot in the northwest to destroy
grain supplies and cattle, steps were
taken today to safeguard grain ele-
vators and stock yards in this state.
Mr. Hoover's telegram said:
"I am informed of a widespread
conspiracy on the part of the en-
emy to destroy animals in stock
yards and grain supplies. In view
of the tremendous loss of food sus-
tained by the recent fire in the
Kansas City stockyards, I urge that
you get in touch immediately with
all stock yards companies in the
state of Washington. This warning
also applies to grain elevators. The
serious loss of wheat in the recent
Brooklyn fire must not occur again."

EMPEROR SAVES STAR FOR PEACE CONFERENCES

(ASSOCIATED PRESS TELEGRAM)
Copenhagen, Oct. 27.—The reason
of Emperor William's unwillingness
to remove Dr. Michaelis at present
despite the chancellor's admitted
loss of control of the political situa-
tion, is according to an article in the
Lokal Anzeiger, that the emperor,
like a canny baseball manager, is
saving his best political star for the
all important service at the conclu-
sion of peace and thereafter and is
reluctant to hurt his stamina by put-
ting him in now. Meanwhile Mich-
aelis must hold on under the ham-
mering as best he can.

TEDDY 59 YEARS OLD FORGOT HIS BIRTHDAY

(ASSOCIATED PRESS TELEGRAM)
Oyster Bay, N. Y., Oct. 27.—Col.

day. "At my age birthdays do not

matter of fact I had quite forgotten
that this is my birthday until some
one called my attention to it."
Congratulatory letters and tele-
grams were received from all parts
of the country.

Duel With Germans—Men Whistled and Sang Enroute

(ASSOCIATED PRESS TELEGRAM)
With the American Army in France, Oct. 27.—Follow-
ing is the first official statement issued from the American
headquarters:

"In continuation of their training as a nucleus for in-
struction later, a contingent of some battalions of our first
contingents, in association with veteran French battalions,
are in the first line trenches of a sector of the French front.
They are supported by some batteries of our artillery, in
association with veteran French batteries."

"The sector remains normal. Our men have adapted
themselves to actual trench conditions in the most satis-
factory manner."

American troops are in the first line trenches on the
French front. The artillery fired the first shot of the war
at 6:00 a. m. on the morning of a recent day at a German
working party. There has been intermittent artillery
fighting since.

The helmeted infantry marched in, without the knowl-
edge of the enemy, on the same night, through rain and
mud. The French soldiers in the trenches welcomed them
enthusiastically.

The nearest enemy trench is several hundred yards
away. The sector is one of the quietest on the front. It
has not been taken over, being under the control of the
troops under direction of the French.

The Americans have shelled German gun positions and
troops, the enemy sending back shell for shell. The first
shell case will be sent to President Wilson.

The case is now in the possession of General Sibert. The shot was
fired by a red-haired gunner as his comrades in the ranks and the assembled
officers cheered. Later a luncheon in the field was attended by the Ameri-
can and French artillerymen in celebration of the first American contact with
the enemy.

The gun used in firing the first shot was one of the famous French 75's.
On the second day the French shelled a German battery position which
was located by the sound and the enemy replied vigorously, projectiles falling
close to the Americans who joined in the artillery duel.

All the troops will be relieved after a certain period by others. Thus
the American expeditionary forces are getting the benefit of actual war
conditions.

Standing in a little, almost deserted shell-wrecked village, well within
hostile gun range and a few kilometers from the trenches, the Associated
Press correspondent watched the troops marching up in a driving rain over
roads covered with sticky mud. The artillery had been firing all day and
as a result the impression was given that there was considerable more ac-
tivity on this front than there had been for some time.

It was soon after lull in the firing and in the dark that the first machine
guns hauled by Missouri mules, the drivers swathed in ponchos and with
shrapnel helmets over their eyes, came upon the road beside a dark canal.
There was a long line of these and then came some infantry rolling kitchens,
giving off a savory odor of warm food.

All passed in silence. The last gun carriage had sprawled on it the
form of a soldier who had been taken ill and who was being held on by two
of his walking comrades.

Through another street paved with cobble and its sides lined with
gaunt skeletons of shell-wrecked houses came the sound of the tread of
many hob-nailed boots and in the darkness the dim forms of men could be
seen marching.

The cautious flash of an electric pocket lamp disclosed that they were
American infantry, packs on their backs, rifles slung on their shoulders rain
glistening on their helmets and coats, the wind whipping the bottom of
their coats around their legs which were moving with machine-like pre-
cision.

The Americans swung down the street apparently as proud as though
on dress parade, notwithstanding that they had marched miles from the bil-
lets where they had been since coming by motor trucks and railway from
the instruction centers. As the ranks passed every now and then a sol-
dier could be heard whispering softly to himself, his nearby comrades listen-
ing silently to sentimental and popular pieces.

Finally from the rear came the whistled strain of a tune which all knew,
and from many places in the ranks whistles and voices joined in. The
tune was "Tipperary" it lasted
briefly, as an officer, turning, or-
dered "stop that noise!"

As the Germans were nearby,
much depended on approaching the
zone quietly. The troops turned a
corner, down an ink-black screened
road. As a major standing there
listened he looked continuously at
an illuminated watch dial. He said:
"The men from the other direc-
tion should now be entering the
trenches. I have been standing
here waiting to hear if the Germans
discover the movement." He paused,
listened and then continued:
"There is no firing yet, although
I expect it, for no doubt we are in
for a 'straff' if the 'Boche' knows we
are going in."

No "straff" developed, although
the Germans put over a few cu-
tomy shells—hitting nothing.
The troops entered the trenches.

GEORGE H. MOSSER RESIGNS AS MANAGER OF CHAMBER OF COMMERCE; LEAVES DEC. 1

MANAGER GEORGE H. MOSSER

George H. Mosser, Manager of the Newark Chamber of Commerce since August, 1916, last night tendered his resignation to the directors of the chamber, asking release from his contract which does not expire until August, 1918. The resignation was accepted after Mr. Mosser agreed to remain on the job until his successor was chosen and installed. Steps were ordered taken at once to bring the vacancy here to the attention of desirable commercial secretaries with a view of securing a man fully capable as the retiring manager.

Mr. Mosser has purchased an interest in the Commercial Protective Association of Ohio, a credit and collection organization recently formed and which has put into operation an entirely new system of credits and collections.

The new work furnishes a fine field for Mr. Mosser's talents along the line of organization and he believes that the future holds great possibilities both financially and otherwise.

In his letter to the directors, submitting his resignation, Mr. Mosser made an impassioned appeal for further co-operation among the members of the Chamber of Commerce to carry on to further success the work which has been launched here. His letter says:

"Your manager has been offered and tentatively accepted, subject to your action, the managership of the Commercial Protective Association of Ohio, an institution devoted to commercial credit and collections, whose system is in process of installation in Newark and other Ohio cities and is in successful operation in cities of nine states of the union. If he makes good in Ohio an even larger field is offered him, with greater opportunities for community service and personal remuneration. The new field will enable him to best capitalize for himself and family the experience gained during seven years of Chamber of Commerce activity, and enable him to return to private business life."

"Since the Newark chamber was organized some 18 months ago, its service to this community and the devoted efficiency of its workers have made the town favorably known all over the country. Its methods have been widely copied and it stands today in the estimation of men capable of knowing, as one of the best bodies of its kind in the state and nation. It ever has been on the alert to gain the most good for the most people of Newark and Licking county."

"For many years it was widely known that the Newark chamber lagged behind neighbor cities in less physical advantages was chiefly due to the lack of co-operation that prevailed among its business men and laboring classes and its apathy as to real civic leadership. The Chamber of Commerce has done much to bring about a better understanding and sense of responsibility and to it

Newark must look for the ultimate solution of this greater problem. Your manager has been in a position to see what infinite harm has been wrought by factional differences, petty jealousies and rivalries utterly unworthy of a city of Newark's splendid possibilities. These can only be overcome by forcefully following up the work so well done, but there are some real tasks ahead. Your manager feels that as he is leaving you now more than ever Newark needs every ounce of strength from its people, not only through the Chamber of Commerce, but from every agency that will work harmoniously with it for the common weal.

"It is with sincere regret that your manager thinks of leaving Newark, the chamber and the many friends with whom he has been associated in advancing the good work of Newark and Licking county. He has given you fifteen of the best months of his life—months fraught with experience gained elsewhere. He will gratefully remember the loyal support against many odds which you officers and directors and membership accorded him."

"His farewell message is—keep on. The chamber is sound financially and organically. You may employ good managers—and you will know how to get them—but Newark's future and the life of the chamber is in the membership. The big nucleus of such a membership you have and that means an organization that will never die."

Mr. Mosser, as agreed with the directors, will continue to handle the work of the manager here until his successor is on the job, meanwhile, starting in on his new work at odd times. For the time being at least he will make Newark his headquarters and his family will remain here.

In accepting the resignation the directors wrote Mr. Mosser as follows:

"The board of directors of the Chamber of Commerce received with regret your letter of resignation as manager. Your contract with us does not expire until August 15, 1918, and we hesitate to release you from our employment. However, under the sole consideration of the fine opportunity that awaits you to improve your condition and establish for yourself an independent business, so flattering in its promise, we have consented to accept your resignation. Although we have a prior right to your services, we feel constrained to step out of the way of your use in the business world."

"In this connection we owe you an expression of our appreciation of yourself personally as a man and of your worth as an able and efficient secretary."

"When we organized the Chamber of Commerce, Newark was a city needing many things. Discord was the prevailing note in all its thought and activities. Out of this has grown a better feeling and co-operation. And especially has this been true between labor and the merchants and manufacturers. All have found out that well organized and regulated labor is as important to the development of a city as is the acquisition of factories to employ labor."

"During your service with us we have done more than will appear on the surface."

"And more than all we have laid and are laying the foundation for a higher and better development than Newark has ever known by cultivating harmony and community fellowship between interests and persons who seemed as far apart as the poles. If we do not pull together there is no pull at all."

"Your guiding hand pointed the way and we all pulled together for the accomplishment of these things. The Chamber of Commerce room is the busiest place in the city and we hope it will continue to be so."

"Again expressing our regret at your going, we wish you the highest success in your new work and if you put in it what you have given this chamber, the result will not be in doubt."

ENLISTED MEN ARE ASKING ADMISSION TO O. T. C. SCHOOLS

Washington, Oct. 27.—Applications for admission to the January series of reserve officers training camps are being received from enlisted men and non-commissioned officers in every branch of the army. Entrance is restricted to those already in the army or to graduates of specially designated schools and colleges including military training in the curriculum. Representatives in institutions will be selected, it is believed within the next month.

STATE-DENISON GAME IS CENTER OF INTEREST HERE

Columbus, Oct. 27.—Eyes of Ohio football enthusiasts turned today towards the contest here between Ohio State and Denison. Results of the Ohio Wesleyan-Miami game will also be awaited with interest. Both schools have strong teams and both are doped as Ohio conference title-contenders.

Other Ohio games are: Kenyon at Wittenberg; Ohio at Cincinnati; Oberlin at Case; Western Reserve at Mt. Union; Baldwin-Wallace at Wooster; Heidelberg at Marietta, and Muskingum at Hiram.

HOOVER ST. WOMAN USES HORSEWHIP ON HALLOWE'EN LAD

Mayor R. C. Bigbee is especially vehement this year in the demand that the pranks of Halloween be made very mild. The police department has received orders to tolerate no rowdism of any kind, and while many complaints have already been received of annoyances, anyone caught destroying property will be summarily dealt with.

One report from Hoover street states that a young man who was celebrating Halloween last night, was caught by an Irish woman residing in that street and that she horsewhipped him. The mayor was extended to her a formal resolution of thanks.

While the more-serious offenses of the Halloween season are not permitted it is even hoped that the "tick-tackers" will fall in with the spirit of conservation and save the corn and flour for better purposes.

OCCUPY TRENCHES WITH VETERAN FRENCH; HAVE BEEN UNDER HUN FIRE

safely, unit by unit passing quickly to the places assigned them. Quietness was essential, but the French welcome none the less was heard and it was enthusiastic.

Every American was shaken by the hand, some were hugged and even kissed on both cheeks in the French custom. Some of the French troops were those who helped to train the Americans. The trenches were found to be muddy, but nevertheless in a condition of excellent construction. Greetings being over the Americans settled down and at daylight, under low-hung dripping clouds, they got their first view of the German lines stretching away in the rolling terrain.

It has rained daily since, and the troops are now covered with mud. Officers say they are certain the Germans know the Americans are opposite them but there has been no special activity.

One American battery observed and scattered a marching enemy group with shell fire.

BRITISH PRESS SEES SERIOUS MENACE IN ITALIAN REVERSES

(Associated Press Telegram)
London, Oct. 27.—The Austro-German blow on the Isonzo is featured by the morning newspapers, which comment rather anxiously. News dispatches disclose that Field Marshal von Mackensen is in command of the enemy forces. A British correspondent on the Italian front in a telegram under Wednesday's date, says:
"This is going to be one of the terrible crises when each side stakes all upon the throw and when thousands of men are strained to the limit of exhaustion for a decision whose effects will reach far beyond the battlefield and modify the whole course of the war. Italy is about to meet singlehanded almost the entire Austrian army and to bear alone the burdens she hitherto has shared with the Russians. It is known that at least 10 German divisions are waiting behind the enemy front and that the number of newly-arrived Austrian divisions is even greater."
Subsequently, dispatches confirming the violence of von Mackensen's onslaught, taken with the Italian and German official statements, cause commentators here to treat the situation very seriously. The Times says the news from all other theaters eclipsed and reads grave warnings in the dispatches from the Italian front.
"The immediate military possibilities of the Austro-German offensive," it says, "are of a character which the allies must instantly take into account." An extensive invasion of Italy at this time would affect the whole allied cause. In that spirit, measures must be taken should the necessity arise.
The Morning Post says the situation evidently is critical and that the British nation must realize that fresh efforts and fresh sacrifices are necessary. The Daily News thinks that all the gains made in Italy's summer campaign are in jeopardy and fears that it is an evil omen that the period of military tension coincides with the political crisis in Italy.
On the other hand, The Times thinks the menace of invasion has strengthened the parties in Italy who criticized the Boselli government for lack of vigor in conducting the war and that the Austro-German onslaught will have an effect in Italy contrary to that anticipated by the army.

Confidence also is expressed here in General Cadorna and in the Italian army, while it is hoped that General Feraud's success on the Alzette and the pressure in Flanders will balance matters.

"The Germans must still be strong," says The Post, "if they can deliver a great assault on the Isonzo and at the same time rest secure in Flanders."

HARVEY J. ALEXANDER
FOR CITY SOLICITOR
Mr. Voter:
Stop and think before you cast your ballot for City Solicitor.
This office requires a man who has had experience in municipal affairs. One who has the interests of the whole people at heart. One who will keep a keen eye when propositions come up that are of vital interest to the people; and such propositions are always coming up.
This is a serious matter. Do not vote for me or any other man, just because you might think that he is, or I am, a "good fellow." A servant of the people should be more than that.

I am asking your support because I feel absolutely confident that I can fill the position. I have practiced law in Newark for almost six years. I have won many prizes for the city for the past twenty years. I was born here; brought up here, and am no stranger in the city. I have made a special study of municipal law, and have had experience in municipal affairs. Investigate my record in the council and you will find that I have always stood for the interests of the PEOPLE OF NEWARK.
I have been criticized by a few because I opposed an increase in the gas-rate; I have been criticized by a few because I opposed a division of the gas sewer fund; I have been criticized by a few because I opposed the method of certain ice distribution; I have been criticized by a few because I have always tried to spend the city's money economically. In answer to these critics I can only say that I am not serving the few, but the people of Newark as a whole. I have been accused of being radical at times. I am radical at all times in favor of the wage-earner and his family, and don't anyone forget it. I know what the workmen are up against.
Believing that the voters of Newark are entitled to know where a man stands, I make this statement over my own signature.
If you wish a man who will conscientiously serve the people, I ask your support.

GREEKS ASKED TO SUPPORT U. S. IN WAR FOR LIBERTY

Local Greeks have received copies of Greek publications in New York, urging all native Greeks in America to stand steadfast in their support of the American government as well as their own, since both governments are aligned in the world war for the same purpose, the complete liberty of all nations from the domination of autocracy. The appeal was made in connection with the acceptance of this government of the credentials brought by the new minister to Washington, George Roussos.
When we see up some people we are inclined to marvel that all things are possible.

LICKING COUNTY SOLDIER BOYS

Mr. A. M. Allison, 15 North Sixteenth street, has just received the following letter from his son, Herman Wallace Allison, who is at Camp Sherman:
"Dear Dad—I will give you a little idea of the existing conditions at Camp Sherman. People's opinion of the camp differ according to the environments, at home and the way they lived as civilians, so you may entertain yourself by trying to figure out how he lived at home. If you know a little of one's individual history, before he entered the army, you can invariably tell what kind of letters he writes home. You will find that if he is one of those who appreciated nothing, and had no respect for anyone in civilian life, he will sure be a chronic kicker in the army. On the other hand, if he has been a man at home, he is the one who makes the best of things, takes everything as it comes regardless of whether he wants to do the thing or not. He is also the one who advances and finally has the honor of a title. But the first character mentioned—if he stays in the army any length of time—will finally see where he has made a sad mistake, and will come out of it a wonderfully different man. I know. This is why I think the discipline in the army is the best ever.
"I feel sure this will be a better nation, morally, after it is all over. And when the once weak boys, who left their mothers in tears, come back strong men and greet their parents at the door of their old homes, they will look up with pride and say, 'Well done, my boy; but you are so different.'
"The heating proposition here has been the only thing that anyone could complain about. This is not caused by any lost effort on the part of the officials of Camp Sherman, but seemingly from shortage of men to install the furnaces. However, the boys in most of the barracks can, at this time, enjoy sitting by the stoves in the evenings and read that letter from their mother, sweetheart, or sister, they were so anxious to receive. They also have the privilege of taking a hot shower bath every evening if they choose, and I know this is one thing that many of them did not enjoy at home.
"The boys have some trouble in getting away from Chillicothe when they receive a 36-hour pass to go home, due to the fact that the facilities are inadequate to take care of the number of men receiving passes. It sure would be a wonderful thing for both the boys of Camp Sherman and the N. & W. Railway if they would run a special train between Chillicothe and Columbus, leaving Chillicothe at 12 o'clock noon, Saturdays, and arriving back at 10 o'clock p. m., Sundays.
"I have been in the service just two days over a month, and I will have to say that I like it better every day. I was first assigned to Battery B, of the 324th Field Artillery. I remained there for two weeks where I received some valuable knowledge of how a soldier should act, etc. I was transferred from there to the headquarters of the 158th Field Artillery brigade. I am getting some very valuable pointers on efficiency in business transactions, and when it comes to efficiency, the army ranks next to no other organization. There is just one way to do everything, and that is the only way that will pass.
"The eats are very good. They do not compare in variety with the ones we get at home, but everything we eat is inspected and is absolutely wholesome, and when we have a good cook, our meals are fine, and I think they will get better because we have a number of student-cooks who do not know the game as they should as yet, but they are learning rapidly.
"There are only 50 men in this detachment, and we get something to eat or smoke most every day from home. Some men will receive a box of cigars one day, and perhaps another will receive a large basket of eats, and, instead of hiding them under his bunk, he passes whatever he has around; the next day someone else gets a box of candy, and he, as well as the rest, gets his share. In this way we all get a larger variety of eats, and there is no hard feelings among the whole company.
"Our clothing is the best that can be obtained, and nothing is spared to keep the boys comfortable in this line. We were issued another blanket today. We all have three blankets and one comfort now, and there is no chance for anyone to get cold at night."

FLETCHER SCOTT IS A CANDIDATE FOR RE-ELECTION

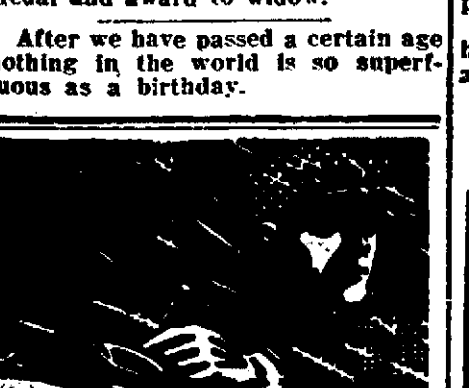

Fletcher S. Scott, Justice of the Peace, is a candidate for re-election and asks all fair-minded voters to take that fact into consideration when casting their non-partisan judicial ballots on election day.
There are nine candidates for the office of Justice of the Peace and only one to be elected. It is the privilege of the voter to vote for the man whom he considers best fitted and equipped for that office. Fletcher S. Scott is a practicing attorney, admitted to the bar of the State of Ohio and has been eminently successful with all cases which have been entrusted to him.
Justice Scott comes before the voters of Newark township with an office record of which he is justly proud. His keen insight into the law has fitted him admirably for the office. His court is praised by attorneys who have occasion to transact business there, and seldom is a case carried to a higher court for his decisions will stand the crucial test and are rarely reversed.
Justice Scott now asks the voters of Newark township to return him to office for a second term, and he feels that he is entitled to that consideration on account of the impartiality with which he presides in trial cases and the precise and scrupulous attention which he gives to all business which comes into his office.
Vote for a man who is qualified for the office. 10-27-20. 11-3-5

SCHOOL BOARD CANDIDATE MAKES A STATEMENT

(Political Advertisement.)
Dr. Clark B. Hatch makes the following statement as a candidate for member of the city Board of Education.
1. I am a candidate for member of the Board of Education, because many citizens interested in our public schools urged me to become a candidate. I feel it a duty as a good citizen to stand for this important office.
2. I believe that Newark children deserve the best schools that it is possible to give them, and that the money spent upon education returns to the city better citizens, therefore I favor a liberal policy toward the schools, but I want every penny to bring some return to the school children.
3. I have two children in the public schools. I want them to have the best schools possible, but I want all other children of the city to have just as good a chance.
4. I am in favor of the best text books, and at the lowest possible cost to children, and free just as soon as the city's finances will permit.
5. I believe that every section of the city should have equally good buildings. These buildings should be such as to promote the best health of children. We should have school rooms enough in each building to avoid the crowding of dangerous railroad tracks by small children.
6. Newark school teachers, if devoted and trained for their work, should be paid salaries in keeping with the services which they render. Teachers usually are the lowest paid servants of the public.
7. If elected to the board I shall perform my duties to the best interest of the Newark schools and I shall certainly want the schools to be kept to the high standard now existing. 10-27-11-3&5

M. R. SCOTT

Candidate for Township Clerk. Will gratefully receive all votes that comes his way.

SECRETARY OF NEW FACTORY NEPHEW OF FORMER NEWARK MAN

The Hercules company will manufacture trousers, and will give employment to a large number of girls. The building is now being overhauled and completely remodeled and will be ready for occupancy within a few days.

FOOD CONSERVATION.

Some men can fight, but all men must eat!

If you cannot go to war for your country, why not EAT for it?

Think of rice, not, corn muffins; delicious, creamy, southern butter bread; tender chicken or duck; fish, fresh or salted, as you like best; eggs in wonderful sauces, creamed or tasty browned; tender, green vegetables; mealy baked potatoes, piping hot; fruits in an infinite variety.

Does that sound difficult to you? Yet, if you eat those, consistently, you will serve your country as truly as he who carries a gun.

BECAUSE—that will leave the meat, the wheat, the fats and the sugar to go across the sea to the army and the allies.

FOOD WILL WIN THE WAR!

HALLOWE'EN.

(By Prof. F. B. Pearson.)

Halloween, to the school children of Ohio, and of all America, is a time of good fun and cheeriest celebration.

To the grownups among us, the season brings memories of scurrying youngsters roistering at night, of mysterious tapplings at windows, of hobgoblins, spooks and frightening clatter.

But just a word this year to the school children of Ohio whose fun, however innocent, might harm the cause of our great country in this terrible war:

I am advised by Mr. Fred C. Croxton, the federal food administrator of Ohio, that the wanton waste of any foodstuffs this year would be a crime against our country. Mr. Croxton asks me to carry to you the appeal, in the midst of Halloween fun this year not to throw corn or any of the vegetables sacrificed from the gardens in former years to startle and frighten the fireside folk on Halloween night.

The things which can be eaten must be eaten or shipped to our soldiers and our allies abroad—every pound of them. Otherwise our soldiers, the soldiers of our allies and their families may suffer want and lose heart in the great fight. No bit of food is too small to save, no bit so small that if wasted, it may not want against us. The school children of Ohio are loyal. They long to do their part in this great conflict. Here is a way: MAKE HALLOWE'EN SAFE AND SANE—and saving this year. To waste foodstuffs this year simply for fun is disloyalty to our flag.

DR. CHAMBERLAIN'S ADDRESS.

"The Government of Germany, the Natural Foe to Liberty" was the topic of a splendid address given Thursday night before the Newark Chamber of Commerce by Dr. Clark W. Chamberlain, president of Denison University. Dr. Chamberlain referred to the address of President Wilson to Congress on April 2nd, in which the President of the United States stated that a steadfast concert for peace could never be maintained except by partnership of democratic nations; that no autocratic government may be trusted to keep faith with it or observe its covenants; that the Prussian autocracy was not and could never be our friend. President Wilson referred to the German Government as an irresponsible government, which has thrown aside all considerations of humanity and all right and is running amuck.

Dr. Chamberlain showed that this arrangement by President Wilson was accurate and correct. He answered the questions which have been raised by friends of Germany who have pointed out that Germany has a written constitution, Parliaments for the individual states and for the nation as a whole, frequent elections, and the right of individuals to the vote. Dr. Chamberlain described the government of the German empire since its foundation in 1871. He gave a complete description of the organization of the Bundesrat or federal council, and the Reichstag. He explained how the emperor declares war with the consent of the Bundesrat, the assent of the Reichstag not being required. Not even the Bundesrat is consulted if the war is defensive and the Hohenzollerns always claim to make defensive warfare. In the present war the Bundesrat was not officially informed concerning the war until three days after the emperor had declared it.

We hear very little about the Bundesrat in America. It is the most powerful body in Germany, far more powerful than the Reichstag, of which we hear a great deal. The Bundesrat is composed of delegates appointed by the rulers of the 25 states, of which the German empire is composed. Of the 61 members, Prussia has 17, and the emperor instructs the delegates of three other members allotted to Alsace-Lorraine. The members of the Bundesrat are really diplomats who represent the numerous monarchs of Germany. They do not vote individually but each state votes as an unit and as the ruler of the state orders it to vote. In this way Prussia controls the Bundesrat and the king of Prussia directs all its affairs. The Bundesrat is responsible to nothing on earth and its powers are very large.

The Reichstag, which is the only popular element in the government of the empire, has 397 members. It has no power to make or unmake ministers. The empire of Germany is in absolute control. The electoral districts have not been changed since they were laid out in 1871. The population has increased in some districts and decreased in others, so that a serious inequality between the districts now exists. A deputy from Berlin represents only 1-10 of the voters represented by a deputy for East Prussia, which is the home of the far-famed Junkers. The German government is government by the emperor. The Reichstag is very largely a debating club with no power of seeing that its will is carried out.

Since 1855 Prussia has had a constitution and a parliament but the constitution was granted by the king and nowhere recognizes the sovereignty of the people. The king can alter or withdraw the constitution at any time.

The legislature of Prussia is the Landtag which consists of two chambers, the House of Lords and the House of Representatives. The constitution does not determine the position of the House of Lords but leaves that to the king to determine by royal ordinance. The House of Lords is dominated by the landowning nobility who are militaristic in the extreme. The king of Prussia has an absolute veto over this House of Lords.

The House of Representatives, which enacts the laws that govern 40,000,000 Prussians, does not constitute a democracy. Every Prussian man who is twenty-five years of age has a vote, but the franchise is so arranged that the ballot of the poor man is practically annihilated. It is accomplished in this way. The voters in each district are divided into three classes according to wealth. The amount of taxes paid by the district is divided into three equal parts. The tax payers who pay the first third are placed in one class. The more numerous group who pay the second third are put in another class and the few who pay the remainder, the great majority of the people, are placed in a third class. The result is that a very few rich men are set apart by themselves. The less rich constitute a second group, and the poor are placed in a third group. Each of these groups vote separately, and elect an equal number of delegates to a convention, the convention elects the members of the House of Representatives of the Prussian Parliament. There is no chance in this system for the poor man. In some electoral districts a single man holds one-third the power.

In Saarbrücken the Baron von Stumm owns the first class all by himself. In one of the Berlin districts a manufacturer of sausages owns the first class.

This system of voting is, antithetical enough but it is not all. The greatest injustice exists because of the device of oral voting. There is no written or printed ballot. The vote is given by the spoken word. This makes it possible for the great landowners and manufacturers to bring unfair pressure to bear upon the voters with the result that not one man in three who is entitled to the vote casts a ballot.

There is no real democracy in Germany. The power of the Prussian crown is virtually absolute. The German legislatures are impotent and ineffective. The real seat of power in Germany is today, as it always has been, in the monarchs. A large audience listened to Pres-

A DAY OF SPECIAL PRAYER

Tomorrow should be a national Go-To-Church Sunday. The president of these United States has proclaimed it as a day for special prayer by all the people for the success of our armies in this great war. In manifesting unflinching patriotism in the purchasing of Liberty Bonds, assisting in Red Cross work and helping the Y. M. C. A. war work, let us not forget that true religion and true patriotism are one and the same. The doors of all our churches are open to everybody and a cordial welcome to worship is extended. Choose the church of your choice, or the one nearest your ideal, enter its portals, and unite with others in supplicating God for success and victory for us and our allies. Remember the boys, recently gone out from our homes, now in the various cantonments, some in France, and commit them to the care of the Great Heavenly Father. Go to some church tomorrow and there breathe out your patriotism in a prayer that will ascend as sweet incense to the God of nations and you will experience a soul-satisfaction and confidence that will be a delightful recompense for the effort made.

WOMAN SUFFRAGE LOOKING UP.

(Pittsburgh Gazette-Times.)

In expressing, "as one of the spokesmen of a political party," the hope that suffrage would be granted to the women of New York state by adoption of the constitutional amendment on November 6, President Wilson did not take any advanced ground. He has previously declared himself favorable to equal suffrage for women, but has wisely adhered to the position taken by both the great parties in their national platforms last year that the question should be left to the several states for settlement. He finds occasion now to urge upon New York's voters that they yield to the demand of the women who have been so active in pressing for the right to vote, declaring the national crisis has tested American womanhood and proved its quality, while the tendency of the times is toward the extension of democracy which must include recognition of the equal rights of all elements of our people. No doubt consideration of the change in world conditions will play an important part in determining the vote in New York next month. Assuredly the women never had more justification for hope of a favorable decision. And it they can carry New York this year they may be expected to carry other states that will vote on the subject in the next few years. The wisdom of leaving the question to the states rather than forcing woman suffrage on possibly unwilling commonwealths through a Federal amendment is bound to be vindicated.

REAL CONSERVATION.

(Zanesville Signal.)

M. K. Barnum, assistant to the vice president of the Baltimore and Ohio railroad, says that the railroads are saving money by reclaiming metal scrap. For instance, he asserts that small boys employed by one railroad collected 40 tons of rivets at a cost of \$100, saving the company \$1,500. Newspapers left in cars by passengers brought another company \$700. As indicating the great total value of the material gathered, it is interesting to note that according to Mr. Barnum one company received 4,000,000 for one year's collection of scrap iron.

It is not merely a matter of saving money, in some cases, great as that is. It is a question of saving material that cannot be replaced. The stock of iron ore, for instance, is not inexhaustible. The same is true of other metals. At present a quantity is being irretrievably scattered and lost.

MEXICO MOVES AGAINST GERMANY.

(New York World.)

Both the Mexican senate and chamber of deputies manifest the purpose of committing the government to a declaration of benevolent neutrality toward the United States and its allies. Before a decision is reached they may even go further and urge a complete break in the relations of Mexico with Germany. The pending legislative measure, of which the text in part has been transmitted by the World correspondent in Mexico City, is a terrific indictment of the German autocracy. It is an appeal to the heart and conscience of the new Mexico not to stand by in an attitude of indifference in the face of the "gigantic tragedy that stirs all civilization."

German guile and German gold have been called into play to keep alive old animosities in certain quarters. In Mexico against the United States. Germans propagandists are desperately active today in the hope of defeating the move to enlist Mexico in sympathy on the side of the entente allies. They are stupidly forced to make it appear that the United States is the enemy of the Latin-American republics and plans to reduce them to the position of subject nations. It is not in that belief that the leading powers of South America have pronounced judgment upon Germany in this war, and smaller republics of Central America have anticipated Mexico.

"Mexico, doing honor to her history, her ideals of progress," declares the Mexican senate's memorial, "must be with the nations that fight for justice, for civilization, for liberty, which is Mexico's own cause. In that sentence, embodying a noble thought, is presented the whole issue, which the Mexican government must settle for itself."

MENNONITES BAFFLE CAMP OFFICERS; WIN FIGHT AGAINST WORK

(Associated Press Telegram)

Camp Sherman, Chillicothe, O., Oct. 27.—Army officers have given up making soldiers of between 15 and 20 Mennonites who went on strike this week, and have refused to do anything save eat and sleep. At the base hospital where the men are assigned to non-combatant duty, it was said today that steps may be taken to try several of the men on charges of being mentally unfit for military service.

The most serious cases are men of the Amish Mennonite sect, whose members, for the most part, adhere to seventeenth century practices. A few of the sects from this sect are almost as so many children. They have lived on farms and know nothing of modern living, with its electric lights, toilets, methods of preparing and serving food, and other things thrust before them at the big military camp.

The 19 who were sent to the guardhouse a few days ago were discharged today and there is some likelihood they will be left to do just about as they please. The officers have found it difficult to get them to do what work they will do and do it properly and with dispatch.

Preparations were completed yesterday for the reception of negro recruits expected to start coming in today. Barracks in Section 9, in the northeast corner of the reservation, have been cleared, clothing and bedding supplies transported there from storehouses and other preparations completed to house the new draftees. Few are expected today, but the majority will come in the next four days. Three thousand in all are scheduled, of which 1800 will be Ohio negroes. Negro line officers, most of them lieutenants, are to here Thursday, November 1, and will be the personal leaders.

It became known yesterday that when Major General Glenn is ordered to France for observation purposes, he will be accompanied by his chief-of-staff, Lieutenant Colonel Paul T. Hayne, Jr., aide: Captain Talbot, former Yale football here, and an orderly.

General Glenn has made recommendations for the selection of some 12 or 15 officers who may be sent to France from here for instruction study. The war department will designate the officers, but probably as recommended.

When they are to go, as well as when General Glenn is to go, is not only uncertain now, but even if definitely decided would not be divulged now for military reasons. It was said here some time ago, that General Glenn may go to France before Christmas, and perhaps before the first of December.

Chillicothe is getting better prepared each week to take care of visitors who come each Saturday and Sunday. A local organization is getting names of all residents who will rent rooms, with or without meals, for a day or two each week. The war department commission on training camp activities has established an information bureau at the court-house. Boy Scouts will act as guides for those needing them.

CHARGED WITH MURDER.
Warren, O., Oct. 27.—Charged with the killing yesterday of Elly Maggiano, and the wounding of Maggiano's brother, Philip Paledon was arrested here early today after an all night search in which several bloodhounds aided Sheriff McBride.

Police said the shooting followed an altercation between the three men in front of their boarding house.

The South and Diversification.
There is considerable uneasiness among thoughtful people below Mason and Dixon's line lest the present high price of cotton may tempt the planters to return to the single crop once more. BELIEVE LICKING WILL GET QUOTA IN 2ND LIBERTY LOAN

When the final compilation of the sale of Liberty bonds for this city and county is completed, there will be no doubt of the result, both will have done their duty, and it will be found that the quota for both has been over-subscribed.

Chairman Walter C. Metz and his assistants have been busy today receiving reports of the sales from each township and all bond salesmen, and while no figures are obtainable yet it can be stated, authoritatively, that the city quota—\$650,000—has been over-subscribed, on the basis of \$500,000,000 asked for by the government.

The quota for city and county is \$1,002,050, but the county has been a little slow in subscribing its allotment made by the committee. It is hoped that when the sale closes this evening it will have exceeded the amount.

Bonds in denominations of \$50 and \$100 will be accepted by merchandise by many of the large stores. The plan has been proposed by the Meyer and Lindorf dry goods establishment, and, no doubt, their lead will be followed by many other merchants.

AMERICAN WIVES OF ALIENS FIND THEIR POSITIONS DIFFICULT SINCE U. S. ENTRANCE INTO THE WAR

Left to right, above: Countess von Bernstorff, Mrs. Ferdinand von Stamm and Princess Hohenlohe-Schillinghurs. Below: Baroness von Schöen and Baroness von Sternburg.

America's entrance into the war has made alien enemies of dozens of women who were once patriotic American girls. Eastern society has seen many international marriages in recent years and some of the most popular daughters of American families have married men of foreign birth. Two such alliances within the past year were Miss Catherine Birney's marriage to Baron von Schoen, formerly secretary of the German embassy, and Miss Catherine Britton's marriage to Prince Hohenlohe-Schillinghurs, until recently attache of the Austro-Hungarian embassy at Washington. Other one-time American girls who are now alien enemies are the Countess von Bernstorff, formerly Miss Jeanne Lackmeyer of New York; Mrs. Ferdinand von Stamm, formerly Miss Constance Hoyt, and Baroness von Sternburg, formerly Miss Lillian Langham.

DRAFT BOARD GIVES SUMMARY OF WORK; 740 MEN EXAMINED

The local draft board has filed its final report with the adjutant general of the state on the business transacted since it first opened headquarters.

A total of 740 members were drawn by the board and of that number 162 have been sent to Camp Sherman at the cantonment at Chillicothe. Higher authorities than the local board discharged five men. One, Max Wm. Bader will leave for Camp Sherman, Dec. 1, having been granted a furlough until that time to close up his business. Another, Samuel Chester, Jr., who shot himself through the big toe, is still unable to leave for camp but will be ordered there as soon as his physician certifies that he is able to do active duty.

There are 27 more on the list at headquarters who have been certified and a part of whom will form the next contingent from this city. Two men have been sent to the Columbus barracks and there are nine slackers on the list. Another certified man is at the Columbus barracks for desertion and another is confined in the county jail awaiting disposition of his case.

Monday seven colored soldiers from this city will be sent to Camp Sherman. They will report at the local draft headquarters in the court house Sunday afternoon at 5 o'clock for roll call. The boys will arrive at Chillicothe at 7:35 in the evening.

MUSIC

Cecil Fanning opened the High school entertainment course with a song recital last night in the High school auditorium. Mr. Fanning is an excellent artist. His voice is even throughout its range easily produced and controlled, he has sufficient temperament and his diction is at all times beautifully clear. He is primarily a singer of songs, clever and versatile and his program ranged a wide variety though not well balanced. His strong dramatic sense was markedly revealed in his superb rendition of Blipham's old song, "Loewe's 'Edward' the most tragic song ever written. The two French songs of Debussy were exquisitely sung and he was more than generous with encores. The last two groups on the program were very light but seemed to please a large and appreciative audience. It is an astonishing fact how little real music is to be found on the average program of an artist's concert. There was a time when almost any one who could play the piano could furnish an accompaniment. That day is indeed a day of the past. It requires all the technique and finish of a concert performer to render the terrifically difficult accompaniments of the modern songs and every singer must include a group of modern songs on his program. Mr. H. B. Turpin, accompanist has added immeasurably to the success of Mr. Fanning's concert. He is an artist with a perfect sense of correct musical values and his accompaniments last night were an added feature.

The comfort of patrons at these entertainments would be largely increased if the ushers sitting in the windows at the rear of the hall would refrain from a rapid running fire of conversation. This continual undertone is a great annoyance to those patrons occupying the rear seats and who wish to hear every note of a concert.

5 CARLOADS COAL PROMISED NEWARK FOR NEXT MONDAY

Six of the leading retail coal dealers of the city and Manager Geo. H. Mosser of the Chamber of Commerce, were in Columbus yesterday and called on some of the largest coal-producing firms in hopes of obtaining a supply to relieve the local famine. They represented that scores of families were without any coal and that if a cold wave comes along it will mean much suffering.

The mine operators and jobbers declared they were receiving calls from all over the state, but they would do what they could to serve their Newark dealers on Monday when the priority lake shipping order is set aside for the benefit of Ohio consumers. Five carloads of coal were promised for Newark on that day.

The traffic committee of the Chamber of Commerce is working with Homer C. Johnson, state fuel administrator, to care for Newark's wants and has provided him with a statement of the needs of industrial and private consumers. It is a difficult task, but the men on the job are doing everything in their power to help out the situation.

There are times when an ounce of detention is worth a pound of free foot.

**CLEANS THE BLOOD
TONES THE NERVES**

The gratifying results attending the faithful use of the new medicinal combination, Hood's Sarsaparilla before eating and Pepton after eating, are seen in purer blood, stronger nerves, improved condition of the whole system.

They are results that make this course of treatment the most economical for sufferers from impure, impoverished blood, weak, unsteady nerves—no other accomplishes so much for each cent expended.

Hood's Sarsaparilla and Pepton aid each other, and to take both is to derive a four-fold benefit.

If a laxative is needed in connection with them, the gentle and thorough Hood's Pills should be used.

"Peruna Cured Me"

"I am glad to tell it."

Mr. Robert Fowler, Okarose, Oklahoma, writes: "To any sufferer of catarrh of the stomach, I am glad to tell my friends or sufferers of catarrh that seventeen years ago I was plagued with a kind of stomach trouble, which I tried almost every known remedy without any results. Finally I tried Peruna, and am happy to say I was healed by the first bottle, and after using a full treatment I was entirely cured. I am now seventy years old, and am in good health, due to always having Peruna at my command. I would not think of going away from home for any length of time without taking a bottle of Peruna along for emergency. You are at liberty to use my picture and testimony if you think it will help any one who has stomach trouble."

Those who object to liquid medicines can now procure Peruna Tablets.

WHAT OHIO CLUB WOMEN ARE DOING

Mrs. Prentice E. Rood, Director of Press.

Never was a convention of Ohio Federation of Women's clubs so strenuous as that just held in Akron. So much of moment was crowded into every meeting that one did not dare to miss one, for fear of letting something slip by that might be of great value to the home club.

Mrs. Charles L. Halter of Fremont, retiring corresponding secretary as chairman of the program committee, secured the finest speakers on timely topics. Inspired by the program, of which patriotism was the keynote, the one thousand women of the state attending the convention have pledged themselves, heart and hand, to carry the English women's slogan: "Co-operation, Concentration, Conservation, and Courage," into all their activities.

Mrs. George Zimmerman, retiring president, endeavored herself to every heart by her graciousness as a presiding officer. Each session was given its allotted time—no more. But no speaker evidenced the slightest annoyance when the two minute warning signal light flashed. Perfect unity was apparent everywhere.

War Relief.
War relief work was discussed in all its phases and dominated every program. Major General Edmund person, sent an able lieutenant in the person of Major William Everson of Camp Sherman. Major Everson urged as a sound business investment as well as a moral help to the soldiers, the building of camp cottages for families of officers and enlisted men.

Only an hour was devoted to Liberty bonds, but much can be done in an hour. The convention voted to invest one thousand dollars in Liberty bonds. Individuals buying \$4,500 worth besides, and pledging themselves to devote their time to it during this last week of the "drive."

The presentation of an engraved wrist watch to Mrs. George Zimmerman, retiring president, and the gift of her executive board and flowers sent by the big Educational club of Toledo of which Mrs. Prentice Rood is president, were pleasant breaks in the business sessions. Officers unanimously elected including four new district vice presidents created by the year's subdivision of the state, are: President, Mrs. Prentice Rood, Toledo; vice president-at-large, Mrs. C. S. Selover, Cleveland; recording secretary, Mrs. Charles Chesley, Norwood; corresponding secretary, Mrs. William Harley Porter, Toledo; treasurer, Mrs. William Leet, Conneaut; auditor, Mrs. William Kepner, Bucyrus.

District vice presidents, middle-west district, Mrs. G. B. Renshaw, Elkhart, Ind.; north-west, Mrs. John W. Rohlf, Lima; middle-east, Mrs. J. M. Henderson, Martins Ferry; south-west, Mrs. Charles Parish, Hamilton; north-east, Miss Emma Patton, Kenton; central, Mrs. H. H. Sharp, Columbus; southeast, Miss Nellie Weldon, Circleville; middle west, Mrs. Charles Selby, Greenville; general federation secretary, Mrs. Julius Fischer, Nelsonville; director of press, Mrs. Mary Proctor Wilson, Lebanon.

An invitation from Coshocton for the 1913 convention was turned over to the executive board.

Mrs. Mary Proctor Wilson of Lebanon, the new director of press, is especially well equipped for her work. She is an author, newspaper writer and publisher—a well-trained voice through which the club women

en of the state may express themselves.

Social Features.
At Stan Hywet Hall, the magnificent Tudor mansion of the Frank Seiberlings, a notable house party was gathered all during the convention and at the tea on Wednesday afternoon all delegates, alternates and visiting club women were welcomed by Mrs. Seiberling and Miss Irene Seiberling.

The view at Brighton Farm at Turkeyfoot lake, will not soon be forgotten by the visitors who enjoyed the hospitality of Mrs. F. H. Mason and her daughter, Mrs. H. K. Raymond. The tea at Brighton Farm followed a visit to famous Anna Dean Farm, the home of Mr. and Mrs. O. C. Barber.

The banquet at the Firestone club house, closing with a talk by Beatrice Forbes-Robertson Hale and an unusual and very beautiful entertainment by Akron talent, was a fitting climax to a week of wonderful inspiration.

The president was summoned to Chillicothe by telegram from Major General Glenn. She left immediately after the close of the convention to go over with him the plans whereby women of the state may most effectively co-operate with the army in maintaining high moral standards and physical fitness.

THE COURTS

Mallonee Pleads Guilty.
William Mallonee, indicted for burglarizing the store of the Universal Supply Company in East Main street, pleaded guilty in common pleas court this morning and was given a suspended sentence to the penitentiary. The court required Mallonee to agree to pay to the county \$5 every two weeks until the sum of \$60 is paid, this being the value of the goods stolen. He also is to refrain from future law violations if the suspension is to remain effective. Mallonee was jointly indicted with Walter Wood for the burglary.

Case Dismissed.
A judgement of dismissal without prejudice was entered in common pleas court this morning in the case of Clarence A. Jessup vs. the Ohio Electric railroad company. The case was assigned for trial Monday. Jessup sued for compensation for damages suffered when he was struck by an electric car.

Jury Finds for Smith.
The jury in the Reed-Smith case, a suit involving the sale of a horse, returned a verdict late Friday for the defendant, R. W. Smith. The plaintiff, Edgar A. Reed sued to recover of a horse sold to Smith, which Reed alleged was guaranteed to be sound. He further alleged that the horse was not sound but was afflicted with chronic indigestion. When the verdict for Smith was returned, plaintiff's attorneys filed a motion for a new trial.

CUDAHY'S DAUGHTER TAKES OWN LIFE IN MID-OCEAN
(Associated Press Telegrams.)
Paris, Oct. 27.—Miss Helen Cudahy, daughter of Patrick Cudahy, the Milwaukee meat-packer, committed suicide in mid-ocean, October 19, according to the army edition of the Chicago Tribune.

Fear of submarines is believed to have been the motive for her act, the newspaper says. A friend who went to her cabin on the night of October 19, found the room empty, and the porthole open. Search of the boat failed to reveal any further evidence of her disappearance.

Newbro's Herpicide Aids Nature and Keeps the Scalp Clean From Dandruff

Reasonable care and effort are all that are required to enable almost any woman to have good hair. When the hair falls out and is stringy, uneven, dry, brittle and generally unsightly, the condition is nearly always due to dandruff.

Before the hair will grow naturally and luxuriantly, the scale-like accumulation must be removed and the dandruff eradicated. That is what Newbro's Herpicide does. It is an aid to nature. Herpicide keeps the scalp clean, adds a softness and lustre to the hair which indicates health. It not only prevents the hair from falling out but causes it to become one of woman's greatest charms. Beautiful hair and lots of it may be the reward of every woman willing to devote a little personal effort to the use of the First and Original Germ-Remedy for Dandruff. Herpicide stops itching of the scalp. It has an exquisite odor.

You can obtain a trial size bottle and booklet telling all about the hair by sending ten cents in postage or silver to The Herpicide Co., Dept. S, Detroit, Mich.

Your dealer sells Herpicide in two sizes, 50 cents and \$1.00, and guarantees satisfactory results or money refunded. Insist upon having genuine Herpicide and not some "off brand" said to be "just as good." The substitute costs you just as much as the real article. Why take chances?

Herpicide applications obtained at the better barber shops and hair dressing parlors.

JUVENILE COURT
Denver, Colorado
BEN. B. LINDSEY, JUDGE
January 29, 1917.
Mr. G. C. Barber, Newark, Ohio.
Dear Sir:—
Prohibition has been an undoubted success in Colorado. I know positively that the past year has brought more tourists to Colorado, and our hotels have been more crowded than ever before. Some of our leading hotel men have told me this personally.
Denver has not only offered, but it has gone ahead with leaps and bounds. Business has increased in every direction and prohibition has been a great success. Before prohibition Denver always voted "WET," and on a proper vote to restore the right to sell beer under very restricted conditions, Denver voted "WET" by about 10,000 majority and the state, I believe, by about 30,000 majority. The question of the huge success of prohibition is no longer subject to controversy in this state.
Sincerely yours,
BEN. B. LINDSEY.

PUEBLO POLICE DEPARTMENT
To the Honorable City Council, Pueblo Colo., Jan. 1, 1917.
I have the honor to report that the year 1916 demonstrated to pronounced degree the beneficial effects of prohibition on crime of all kinds, in that the department made fewer arrests by nearly one-half than the preceding year, with a larger proportion of liquidated fines than ever before in its history.
The number of arrests was 2,593, as compared with 4,510 in 1915, the difference is reflected in the fact that only 13,056 meals were served prisoners as against 21,814 the year previous. A large number of the cases handled were petty offenses.
With the introduction of the "DRY" regime in Colorado at the beginning of the year, most of the arrests for drunkenness have brought prosecutions for footlocking and other violations of the prohibition law in their neglect of duty, and extreme cruelty.
A large percentage of these have resulted in convictions, through the activity of police officers in securing material evidence.

SYNOD DENOUNCES RUDOLPH MACK IN RESOLUTIONS

(Political Advertisement.)

BERT O. HORTON

By unanimous rising vote the Ohio Synod of the Presbyterian church at its concluding session adopted resolutions of censure against Rudolph Mack of Cincinnati and his organization. Mr. Mack is a member of the Walnut Hills Presbyterian church of Cincinnati.

The resolutions recite: "The Synod of Ohio unequivocally endorses the present Dry Campaign in Ohio and deprecates and condemns any effort by any person or persons under whatever guise, to either defeat the amendment now submitted to the voters of the state, or to create dissension within the dry ranks. We denounce the so-called Law Enforcement League and its promoter, R. A. Mack, as being willful hindrances of the cause, and warn all people against affiliation therewith."

"We commend the efforts of the Ohio Dry Federation, the Ohio Anti-Saloon League, the W. C. T. U. and all other organizations as being the true friends of temperance in this state."

"Emancipation is within our reach. Let the people arouse and grasp it now. Presbyterians have been in the forefront of every great effort of humanity's good. Let us realize the present as an opportunity to add to the splendid record of the past by 'doing our bit,' and by seeing to it that it is as big a bit as we are capable of doing if all Christian people will do this, we shall no longer be cursed by the liquor business. The call is to the colors."

GERMAN GENERAL ADMITS THE BRITISH HAVE BETTER FORCES

(Associated Press Telegram)
Amsterdam, Oct. 26.—General Sixt von Arnim, one of Germany's prominent commanding generals in an interview in the Korrespondenz Norddeutscher Allgemeine Zeitung, said the British troops were more numerous than the Germans and that the British batteries were equipped with far more heavy guns than the Germans possessed. A further advantage for the British the General said was that they had 80,000 soldier laborers for bringing up munitions while the Germans who serve the guns have to feed them.

General von Arnim also commented on the wholesale expenditure of ammunition by the British. He said the transport of munitions from England, owing to the shortness of the voyage, was difficult entirely to suppress but that the United States appeared to be greatly hampered by the U-boat warfare in the delivery of munitions and that the munitions themselves were of bad quality.

Chicago Grain.
(Associated Press Telegram)
Chicago, Oct. 27.—Heavy selling caused a sharp break in corn prices today. The market recovered, however, and the market recovered. A renewal of rainy weather did a good deal to prevent selling. Opening prices ranged from 2 1/2 down to 1 1/2, and May 1 1/2 to 1 1/2. Prices followed by a setback all around, and the market closed at 1 1/2. Prices closed unsettled at the same as yesterday's finish to the lower, with December at 1 1/2 to 1 1/2, and May at 1 1/2 to 1 1/2. Oats were governed by the action of corn. Provisions averaged higher owing to continued scarcity of hog receipts. At the outset, however, pork broke severely, influenced by the transient rise in corn.

Trading in stocks during today's short session, was attended by many substantial advances. Shippers led the entire list. Marine preferred gained over 6 points. Prominent falls rose to 2 points; steel, copper and related equipments 1 to 3 points and oils and

A GOSSARD CORSET For Every Woman

They Are Wonderful Corsets

To see the wonderful new Gossard Corsets designed for this fall is to involuntarily stop and marvel.

Years of concentrated effort in the manufacture of the celebrated Gossard Corsets have resulted in the production of these wonderful garments. Gossard Corsets have arrived at their greatest excellence: have achieved their highest effect in contributing to the beauty and loveliness of women.

This season an array of materials, fabrics and trimmings of rare beauty, daintiness and durability such as has never been used before have been cut and wrought into these wondrous designs, which only Gossard originates.

Can we promise you a greater boon than perfect health and priceless comfort? For these Gossards are carefully and skilfully designed and that woman who fails to wear one this season misses her opportunity to improve her figure to its utmost in beauty and contour.

Select the Gossard designed for your Figure
Type---at the price you wish to pay.

There Are Nine Ideal Figure Types. WHICH IS YOURS?

One of the types illustrated is a counterpart of yourself properly corseted, and this desirable result is only obtained through the wearing of the Gossard model especially designed for your particular figure. Graduate corsetieres trained in fitting, assist in selecting the corset as well as in fitting if you desire.

Ideal Average Figure

You lace your shoes in front, you button your coat in front, why not lace your corset in front.

We carry an exceptionally complete stock of models for this type. They run in price from \$2.00 to \$35.00.

Ideal Large Above-the-Waist Figure

The typical French figure, which is large above the waist, may be fitted in a variety of Gossard models, each of which cleverly accents its charms. Angle fullness at the back confines the full shoulder blades and gracefully curves the bust into a smartly defined waistline. \$2.00 to \$35.00.

Ideal Tall, Slender Figure

Because the tall, slender figure is so difficult to fit comfortably, Gossard has designed special numbers for this type, lightly boned over the hips and combining most delightfully the advantages of comfort and style. These are especially good at \$2.50 up. Others in a variety of materials and prices.

Ideal Large Below-the-Waist Figure

Women who are large below the waist do not require made to order corsets since Gossards came. These satisfactorily designed models confine and reduce the thighs, distributing the flesh in better proportion and giving the appearance of a fuller bust. Elastic inserts allow the long skirt to give freely to the movements of the body. Our corsetiere can fit you at the price you want to pay.

Ideal Short, Slender Figure

Short slender women will find in the models designed for them a priceless comfort in the free modeling of the hips, in the light, pliant materials used, in the gentle molding of the waist to a more perfect line, giving the appearance of a fuller bust. They range in price from \$2.00 up.

Ideal Short-Waisted Figure

Many a woman's figure otherwise perfect, is marred by a too short waist. These new Gossard long-gored cleverly cut models have eliminated worry for women of this type--they are marvels of perfection in both materials and designs, and provide most cleverly an improvement in the short-waisted figure. We have these models in every fabric and at every price.

Ideal Tall, Heavy Figure

Gossard designers have shown infinite skill in corseting the tall heavy figure, distributing the flesh, supporting the full bust and abdomen, reducing the hips and molding the whole figure to slighter lines, giving the appearance of greatly reduced weight.

Ideal Curved Back Figure

The curved back figure needs a corrective corset. Gossard has designed for this figure a complete selection of models in a variety of prices, each of which will accomplish a reduction of the lower back without undue pressure or restraint. If your figure requires a corrective corset, our corsetiers will be more than pleased to serve you.

Ideal Short, Heavy Figure

The smaller waist silhouette, so greatly to be desired in the short heavy figure can readily be obtained in the Gossard design for this type. These models support the flesh at the back so that it always rests on the corset and eliminates the broken figure line at the bust so commonly seen in figures of this type. A complete line in many fabrics.

Gossard Misses' and Junior Models

It is essential that the growing girl be correctly corseted during those important years of development which lie between girlhood and womanhood. Insure her height by guarding her width--provide for her figure future by starting her now in a scientifically designed Gossard Misses' or Junior model. Moderately priced at from \$1.50 to \$2.50.

It is the most wonderful front laced corset on the market.

You are invited to come in and try one of these famous Gossard Corsets on.

Apples for Soldiers.
 Newark soldiers at both Camp
 Sherman, Chillicothe, and Camp
 Sheridan, Montgomery, Ala., are en-
 joying some splendid eating apples
 which have arrived at the camp.
 They are the gift of Charles Henry
 and Henry H. Fitzsimmons
 who sent four bushels by express to
 each camp.

Battery Soldiers Transferred.
 Harry Poltz, Battery E, and Glenn
 Williams, Battery F, 324th Heavy
 Field Artillery, have been trans-
 ferred with several hundred other Camp
 Sherman soldiers, to Camp Grant.
 Many Newark and Licking county
 boys are members of these two bat-
 teries.

Attend Mardi Gras.
 Several hundred from this city
 attended the mardi gras at Zanes-
 ville last night and a number of
 masks took part in the big parade
 and enjoyed the festivities which
 followed. The interurban sold 216
 tickets to Zanesville while the B. &
 O. also handled a large number of
 passengers. Scores of autos made
 the trip in spite of the inclement
 weather and two of them met with
 an accident on the way home, skid-
 ding and going into the ditch along
 the National Pike, one machine over-
 turning. It is said that none of
 the occupants were hurt.

NATION IS ASKED TO CONSERVE FOOD AS A WAR MEASURE

Columbus, O., Oct. 27.—The great
 drive, started from Washington by
 Herbert C. Hoover, America's Food
 Administrator and urged by Presi-
 dent Wilson to line up American
 housewives in their daily life behind
 the boys at the front starts tomor-
 row.

It is Food Pledge Week through-
 out the country, directed from Hoov-
 er's office through the various Fed-
 eral Food Administrators in each state
 to enroll every household in the or-
 ganization to save food. Every
 American housewife is to be asked
 to sign a pledge card which will be
 given a "home card" giving out the
 pledge and also a window card to
 show that her home is ready to
 "serve by saving" and to "fight by
 helping the fighters to fight."

Workers are organized in every
 county in Ohio for the campaign. Dr.
 D. F. Garland is the state campaign
 director. Dr. Garland today predict-
 ed Ohio would be in the front ranks
 when the pledge cards from all states
 are counted. The goal for Ohio is
 900,000 housewives.
 From their pulpits tomorrow min-
 isters all over the state will urge the
 importance of the members of their
 congregations getting out and work-
 ing to make this first great drive of
 the U. S. Food Administration a suc-
 cess. Daily reports will be made to
 the office of Federal Food Adminis-
 trator of Ohio, Mr. Fred C. Croxton,
 at Columbus on the progress of fam-
 ily enrollment week.

Preaches in Cincinnati.
 Rev. E. N. Kraft left for Cincin-
 nati, where he will preach Sunday
 morning. The services at St. John's
 Evangelical church will be dropped.

 nesday, Oct. 31st.

Women's Day Program.

 Street United Brethren church will
 observe women's day with a program
 Sunday evening at 7 o'clock. Pro-
 gram consisting of music, readings

Ewald in Alabama.
 Edward Ewald, one of the leading
 members of the A. I. G. Field minstrel
 organization, entertained a number
 of Newark boys at the Montgomery,
 Ala., theatre where his company is
 playing the last of this week. The
 boys were glad to meet an old New-
 arkite and Mr. Ewald spent much of
 his time in Camp Sheridan with the
 soldiers. In a card to a friend here
 he stated that the boys were all well,
 having a good time and sent their
 regards to all Newark friends.

SECOND TERM. 10-25-10t

SQUIRE HOLTON
 The nearer approach to the elec-
 tion on November 6, makes the elec-
 tion of Squire W. F. Holton as Jus-
 tice of the Peace, on the non-partisan
 ballot, more in evidence.

The squire's well-known fitness for
 the office on account of personal
 knowledge of the law by long expe-
 rience and his ability to conduct lit-
 igation on the lines of justice, makes
 the squire a popular favorite with
 the great mass of the voters. Squire
 Holton is appreciating the many evi-
 dences of support he is receiving
 daily, and when elected he will make
 a popular justice by the way he will
 discharge the duties of the office.

CHILICOTHE K. C. LODGE TO CARE FOR FRIENDS OF MEMBERS

Chillicothe, Oct. 27.—In the face
 of the lack of accommodation for
 parents and friends of soldiers who
 come here Saturdays and Sundays to
 spend a day or two with their boys,
 the Knights of Columbus have insti-
 tuted a lodging committee and when
 word is sent in advance, they will se-
 cure rooms in private families over
 Saturday night and Sunday, or any
 other visiting days, some sixty or
 more homes having been opened to
 the committee for such use. When
 emergency calls for rooms are made,
 the committee will endeavor also to
 find them, but can not always assure
 the seekers of a place on such short
 notice.

The Knights are now re-fitting
 rooms on the third floor of the Car-
 lisle Block, Co. H's former Armory,
 and hope to be in them by November
 1st. These will be completely fur-
 nished and equipped and be open to all
 Catholic soldiers and their friends
 either at Camp or from home. It
 will be a down town meeting place
 for the boys and their families, a
 club room any day or evening, and
 there will be music, victrolas, a libra-
 ry unit, pool tables, card tables, rest
 rooms, writing materials and a sec-
 retary always in charge from 9 a. m.
 to 11 p. m.

The Knights of Columbus head-
 quarters have been so utilized hitherto,
 but were inadequate, both as to
 size, equipment and attendants, and
 all these will be supplied in the new
 quarters.

HALF MILLION GIVEN TO
METHODIST COLLEGE FUND

In the first four days of the All-
 Ohio Educational Jubilee campaign
 to raise \$2,900,000 among Ohio
 Methodists for distribution among
 Methodist colleges of the State more
 than \$500,000 in subscriptions were
 reported to Columbus headquarters.
 One of the most interesting gifts
 reported was one of \$30,000 in cash
 to Ohio Wesleyan, Delaware. The
 gift was made to this university by
 the son of a Pennsylvania layman,
 who is carrying out the wishes indi-
 cated in his father's will.

According to the report made to
 Columbus headquarters, the Pennsylv-
 anian engaged in many philan-
 thropic activities previous to his death.
 In settling his father's estate, the
 son learned that a bequest of \$30,-
 000—one of several to educational
 institutions—was to go to Ohio Wes-
 leyan. The money was forwarded
 forthwith to the university.

"This is \$30,000 that Ohio people
 will not have to subscribe to meet
 the \$2,900,000 goal," Rev. E. C.
 Hickman, All-Ohio Publicity Direc-
 tor said this week. "Those who are
 conducting the campaign feel assur-
 ed that Ohio will meet her responsi-
 bility in noble fashion."

Besides Ohio Wesleyan, other in-
 stitutions participating in the fund
 are: Baldwin-Wallace, Berea, Ohio
 Northern, Ada; Mt. Union, Alliance;
 Wesley Foundation, Ohio State Uni-
 versity, Columbus, and Board of Edu-
 cation, M. E. church

TO THE VOTERS OF NEWARK AND NEWARK TP.

In all the excitement and talk about the mayoralty candidates, prohibition, woman suffrage, etc., which are to be voted upon November 6, some of the "smaller fry" are very likely to be overlooked. This is to remind you that Jas. McGough of No. 12 St. Clair street, this city, is a candidate for Township Treasurer and desires your vote. His name will be found on the Township Non-Partisan Ballot, which is only one of the six ballots you will receive to vote. Mr. McGough is now serving his second year as president of Typographical (Printers) Union, No. 69, and has been Keeper of Records and Seal of Roland Lodge, No. 305, K. of P., for five years. He is also a member of Acme Lodge, No. 554, F. & A. M. Your support will be appreciated.

JAMES MCGOUGH.

Y. M. C. A. Notes

Ed Palmer and Thomas Chidlaw, two dormitory boys left to join the colors. They were both good scouts and will be assets to the army. The Senior basketball team elected officers at a supper Thursday night. M. A. Keith was elected captain, and Russell Tharp manager. War and college, two opposed world forces, have joined to deplete the basketball squad of last year, but those left are going courageously forward with new material. The season is not even in sight as yet, but they believe in a long preparation. The telegraph school has at last come to be a reality. Three sessions have been held, and Instructor D. A. Greene reports eleven students enrolled. The association is in a position to adapt itself to the several needs of the students; those who are beginners and those who have had some previous work in this line, are alike given what they need. Mr. Wright, of the B. and O. railroad, who was instrumental in getting the mechanical equipment for the school, visited one evening, and is elated with the prospect. Fifteen cents a lesson is charged, the students attending as often as they can. Free use of the instruments out of school hours is granted learners. So far, no army signal corps volunteers have come forward; their tuition is free. The junior and cadet members are looking forward to a Halloween celebration Monday evening. Parents of the boys and all senior members are invited to participate in the revels. A specially called meeting of the Licking county branch of the War Work council of the Y. M. C. A. was held at the Masonic building Friday of last week. Dr. Timberman of Columbus, presented in a strong way, the future needs of the army and navy branches, and of the branches in the allied armies of Europe, including the prison camps. The Y. M. C. A. is fast becoming an integral part of the army and navy; it is as vital to the success of our arms as is the Red Cross. General Secretary Johnson has been recruiting his strength for the past few days, by resting in Newark. He has been appointed, with two others of the Chillicothe Y force to go to France, but the details of date, etc., have not been received. Something new! The Hi-Wi Club. What is it? Ask at the office. The standing of the junior and cadet groups is as follows: Airman, 42; gunners, 36; dough-boys, 28; troopers, 27; eagles, 63; middies, 54; liberty boys, 49; Sammies, 42. The man who counts his chickens before they are hatched would naturally count his egg plants before they are ripe.

Y. W. C. A. Notes

The Young Women's Christian Association has for its president Mrs. Frank L. Johnson who in the absence of a general secretary is also acting in that capacity. She needs no introduction to the public who know her in other fields as an enthusiastic Christian worker and one who is imbued with the Y. W. C. A. spirit.

Mrs. Alta K. Daniel comes to the association as its new "Home" secretary, fresh from a training center in which she prepared herself for her special line of service. She is the motherly friend and adviser of the girls in the association "Home" and the efficient director of the cafeteria. A native of Ohio, her home being in Richmond, she spent her married life in Mobile, Ala. Mrs. Daniel has unbounded enthusiasm for her work and is rapidly making herself a factor in the community. She has already made her impress upon the girls and the "Home" and has increased the efficiency of the cafeteria.

"Girls' Work" is the new feature which the Y. W. C. A. introduced last year and carried forward most successfully. As the result, the Association now fosters a high school club, known as the "P. A. C." under the leadership of Miss Dorothy Edmiston, at the East Main Street school. "The Blue Birds" under the leadership of Miss Thora McDonough; at the Hartzel school, "The Girls of the Golden Chain," under Miss Laura Blank as leader; at the Moundschool, the "Mound Builders" under Miss Edna Swanson as leader and at Woodside, Miss Margaret Fuller is leader of "Jawwado."

These five clubs brought into the Y. W. an additional membership of one hundred girls from the High and the seventh and eighth grade schools. The significance of their membership of girls trained in association ideals, cannot be estimated. It is the level of the Christ principle working its increasing way through school, home, church and community. Is it not worth while?

Camouflage

Some of these days we are going to have a good definition of Camouflage. However with our present knowledge we are going to give a political definition of the term.

1. When someone deceives you by false report.
2. When someone would cover up the main issue by raising a minor one.
3. When someone beclouds your better vision and causes you to see as through a glass darkly.
4. When someone paints a fairy picture of ugly facts that can not be controverted.

These severally and individually constitute
